In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F)

minus all Outcomes (R+V). -----> 0 124 124

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

Cats still in foster care due to age or health. Took in a large number of kittens under 8 weeks at the end of the year.
