<b>W</b>	<b>ENDING SHELTER COUNT (12/31/10)</b>			

In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V). ----->

4 126 130

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

Animals still in foster care due to age or health. Took in a number of cats and kittens at the end of the year. We had a number of cats from a few shelters that had panleukopenia and we had to quarantine for a number of months in those foster homes. Also involved in a meth lab rescue involving many of the UU cats as well as a few UU cats that came from a CO hoarder seizure from which we were took animals

**I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."**
